## Why exhibit at ECSCRM 2020•2021?

A conference organized by University of Tours - GREMAN Laboratory - CNRS

- **ECSCRM 2020•2021** will be held in Tours from October 24 to 28, 2021 in the **Vinci International Convention Centre, at Tours**, in the heart of the city.
- ECSCRM is a biannual scientific event that explores, presents and discusses the new achievements in the field of wide-bandgap semiconductors focusing on silicon carbide (SiC) and other wide bandgap semiconductors. The aim of the ECSCRM 2020•2021 conference is to discuss the advances in Silicon Carbide technologies. Major topics but not limited to:
  - Fundamentals (theoretical and experimental)
  - Bulk and epitaxial growth
  - New materials grown on SiC (graphene, III-N compounds and diamond)
  - Material characterisation
  - Surfaces and interfaces
  - Device fabrication processes
  - Devices (power, RF power, sensors...)
  - Device physics (measurements, modelling, simulation and reliability)
  - Packaging, modular and circuit technology
  - Applications and reliability
  - Power related materials
- Organizing committee: Daniel ALQUIER, Jean-François MICHAUD, from the University of Tours.
- More than 700 delegates are expected:
  - Researchers,
  - PhD students,
  - Engineers,
  - Industrialists and entrepreneurs
- The conference language will be English.
- ECSCRM 2020•2021 is a dedicated opportunity to:
  - **Promote** your services and/or products;
  - **Distinguish** yourself from competitors by being involved in state of the art research and innovation;
  - **Prospect** for new clients.
